Custom PubMed for CCCC Faculty & Staff

How to set up your own Login & Filter in PubMed Medline

IMPORTANT

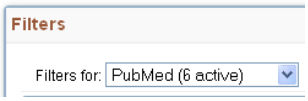
Connect to PubMed from the Wilkens Library Website or from a Health Science Class Libguide using this link http://www.ncbi.nlm.nih.gov/sites/entrez?holding=macapecclib_fft&myncbishare=wilkens_library

Sign in

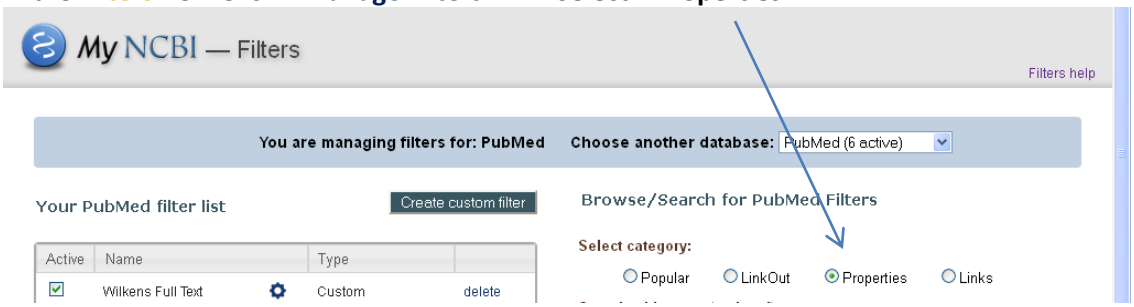
Don't have an account? Click Sign In and register for an account.

(on your own computer, √**Keep me** & **Remember** boxes)

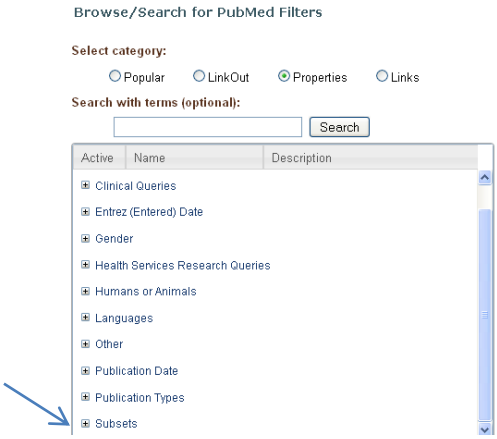
NOW FOR THE **FILTERS**! Right column, see **Filters**



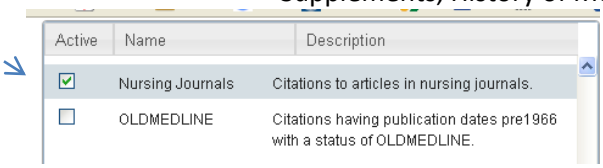
In the **Filters Box Click Manage Filters Select Properties**



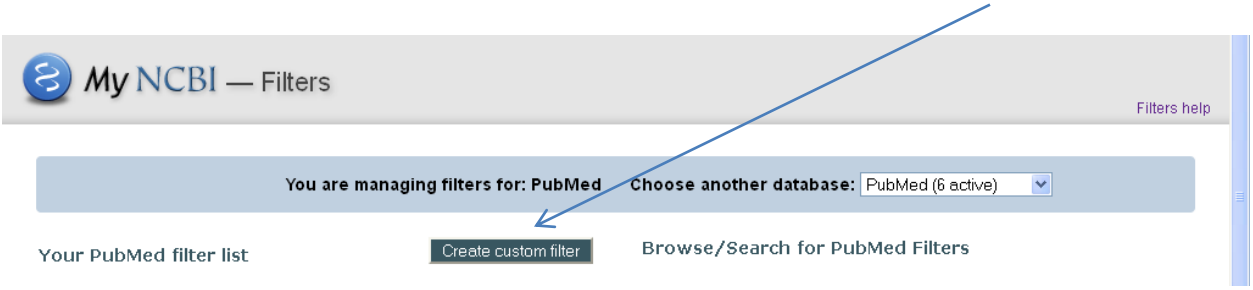
At the VERY Bottom of the PROPERTIES selection, **click on the + in front of Subsets**



In the Subsets List check your BLISS: NursingJournals, Dental Journals, Complementary Med, Bioethics, Cancer, Dietary Supplements, History of Medicine, Veterinary, Systematic Reviews, Toxicology



NOW set up a WILKENS FULL TEXT filter Choose CREATE CUSTOM FILTER



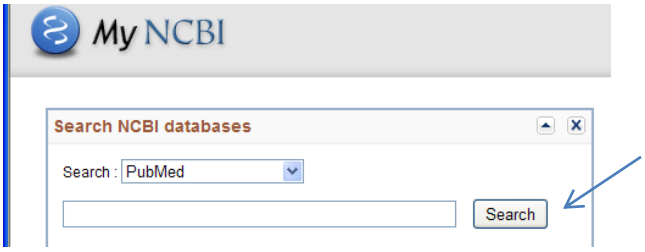
- Type this EXACTLY in the Query terms search screen: **loprovmacapecclib[filter]**
- EXACTLY! NO Spaces
- Name it **Wilkens Full Text.** This filter captures all the full text in Academic Search Premier | CINAHL+FT | DOSS | Biomedical Research Index | Psych & Behavioral Sciences | Science Reference Center

---

HOW TO RETURN TO PubMed WHEN YOU ARE FINISHED

Click on the My NCBI **icon in the upper left of your screen**

Click on the PubMed SEARCH button



LIMITS vs FILTERS

- You can employ **multiple limits**. You can only view results from **OneFilter at a time**.
- Use Limits for absolute requirements in a search. e.g.: Language English | Publication type Review.
- Limits remain until you change them.
- If you need full text options within a discipline, use Nursing, Dental, Complementary etc as the limit.
-

vs

DUMB SEARCH (UMLS Metathesaurus) vs PRECISION SEARCH (MeSH, Subheads, Explosions, Combinations)
