Overview

The Liberal Arts concentration is designed for students who have not yet chosen a concentration. It prepares students to transfer to a baccalaureate degree-granting college or university as a junior. Students are encouraged to take electives in disciplines in which they may major at a four-year institution. Specific course choices should be made in consultation with an academic advisor and requirements of the transfer institutions.

Career Outlook

Potential careers will vary depending upon the chosen major. A bachelor's degree is usually the minimum requirement for entry into many fields, and additional graduate work may be necessary as well.
