

Submitting a Contract to take a regular course for Honors credit

4 STEPS

1. Go to www.capecod.edu/honors and click on **Honors Program Qualifications** where you will find options for qualifying; you only need one to qualify. Click on **Guidelines for Honors Contracts in Regular Courses**.

2. Select a course that you are currently enrolled in and ask the professor if he or she will work with you on an Honors contract in the course.

3. Decide with your professor what the project will be—a research paper (minimum of ten pages plus documentation) or service learning, art, or music applied some way to course content or a lab experiment, etc. All Honors work has a written research component. The length will be determined in the response to the student's Honors Contract proposal. The project cannot be an enlargement on a class assignment, and it must be directly related to the course's content. The grade on the project is not averaged into the course grade; the project, if it is a B or higher and the course grade a B or higher, will give you Honors on your transcript for the course.

4. Click on **Contract Form** and submit a hard copy, signed by you and your professor, to John French, North 202 or Cindy Pavlos, North 204.
