Associate in Science Business Administration Program – Hospitality Management Concentration

Overview

Students in the Hospitality Management concentration acquire a wide range of management theory and practical training to prepare them for a career in the hospitality industry: restaurant production and management, hospitality accounting, marketing, law, and lodging.

Career Outlook

Currently, there is a strong demand for well-trained competent workers in the hospitality field. Students completing this concentration are prepared for a career in the hospitality field in a supervisory or middle-management position.

Program Outcomes

Upon completion of the Hospitality Management concentration, students will be able to:

- demonstrate skills in planning, organizing, leading and controlling that are necessary to coordinate and manage the component parts of the hospitality industry and to effectively communicate with employees, guests, suppliers and other related groups
- perform technical skills necessary for operating a successful hospitality business
- perform administrative skills in basic bookkeeping procedures, business cost controls, and planning and coordinating hotel restaurant operations
- recognize and apply inter-personal skills needed in hospitality management, including team building, group decision making and providing quality guest services.

* Any student intending to transfer should take a college-level math reflecting the requirement of the transfer college.

**Students planning on transfer should take either ACC111 or ACC112 or ACC201.
