Re: Proposed Calendar of Surveys of CCCC Students, AY2007 – AY2011

IRPC has prepared this multi-year calendar so that faculty and staff will be better able to plan for student surveys scheduled for the next five academic years.

CCSSE: Community College Survey of Student Engagement (for more see www.ccsse.org)

NLSSI: Noel Levitz Student Satisfaction Inventory (for more see www.noellevitz.com)

* Approximate weeks during the semester during which the survey will be administered. Student satisfaction surveys are administered earlier in the semester to maximize responses from students who may drop out later in the semester; student engagement surveys are administered later in the semester to allow for a complete classroom experience.

CCSSE results help colleges focus on good educational practice — defined as practice that promotes high levels of student learning and retention — and identify areas in which community colleges can improve their programs and services for students.

NLSSI results help:

- Guide strategic action planning
- Strengthen student retention initiatives
- Meet accreditation requirements
- Identify areas of strength for institutional marketing
- Chart progress toward campus goals
