Overview
The purpose of this agreement is to provide a sound framework for provision of business continuity of IT mission critical systems to the highest professional standards in support of the business missions and objectives of CONNECT institutions. It is designed to encourage a joint open partnership approach with regular and free exchange of information between parties.

The initial scope of this agreement is to cover the business continuity of IT legacy systems of CONNECT institutions. As the systems and processes necessary to provide business continuity of IT mission critical systems are proven, the scope of this agreement may be expanded to include other open systems and platforms, with the ultimate goal of the partnership being the provision of disaster recovery services for all mission critical systems and other applications in use at CONNECT institutions.

The underlying principles governing this relationship will include collaborative decision making leading to joint investment in technologies and infrastructure to support the business continuity of IT mission critical systems, and open communication to facilitate the efficient delivery of business continuity of IT legacy systems to each other, as well as other CONNECT institutions.
II. Period of Agreement

A. This Memo of Understanding is effective on October 1, 2007, and will run until June 30, 2010.

B. Any party to this Memo of Understanding may request that it be dissolved prior to the end of the fiscal year by providing a written request. This request must be sent to the other institution’s CIO at least 120 days prior to the proposed date of dissolution.

III. Recovery Locations

A. Disaster recovery locations will depend on the circumstances of the emergency. However, the preferred priority of recovery location for each of the CONNECT institutions is as follows:

<table>
<thead>
<tr>
<th>CONNECT Institution</th>
<th>Preferred Recovery Site</th>
<th>Alternate Recovery Site</th>
</tr>
</thead>
<tbody>
<tr>
<td>UMass Dartmouth</td>
<td>UMass UITS</td>
<td>UMass UITS</td>
