Subject: Campus Safety and Violence Prevention

Good Afternoon:

As you are no doubt aware, the Board of Higher Education has formed, in partnership with the Executive Office of Public Safety and Security, the Executive Office of Health and Human Services, and the Office of the Attorney General, a Campus Safety and Violence Prevention Work Group, the purpose of which is to analyze the causes of campus-based violence and make recommendations regarding campus safety and violence prevention at Massachusetts' public institutions of higher education.

On February 5, 2008, the Board of Higher Education initiated a contract with Applied Risk Management (ARM), Stoneham, MA, partnered with The Academy Group (AGI), to complete a study in which they will define the nature and scope of the problem of campus violence; conduct a best practices study for enhancing campus safety and violence prevention; review the existing practices and policies currently in place in the MA system of public higher education; develop best practices policies; and participate in the presentation of the findings of the report and best practices.

To define the problem, ARM will conduct a statistical study of violence on campus within Massachusetts, including criminal homicide, sexual offenses and aggravated assault. Their study of best practices for enhancing campus safety and violence will include prevention and early detection, physical security, electronic security and procedural security. In order to assist in completing the study, ARM will be sending an electronic questionnaire to each college. To this end, the Board of Higher Education has forwarded to ARM a point of contact list which includes the name and contact information of the previously appointed campus liaison.

Additionally, ARM has requested that each school supply electronically, detailed information on each violent incident (homicide, rape, murder, robbery and aggravated assault) that occurred on each respective campus from 2006-2007, using the National Incident Based Reporting System. This information should be forwarded by March 17, 2008, to Daniel O’Neill, President/CEO,
Risk Management, at stopcampusviolence@arm-security.com, as well as, to Tryntje Gill in the Employee Relations and Benefit Administration group here at the Board of Higher Education at tgill@bhe.mass.edu.

Thank you in advance for your cooperation and assistance in responding to this request in a timely manner.

If you should have any questions of any sort regarding the information which we have requested, please do not hesitate to contact me directly, by telephone at (617) 994-6928 or by e-mail at ptsaffaras@bhe.mass.edu.
